

**ScreenWatch Advantage**  
**Volume Pricing**  
**(Updated for ScreenWatch Version 6)**  
**Effective 1/1/2006**

Volume pricing is broken down into levels. A level determines what price for individual copies an institution will pay. To maintain a purchase price level, an institution must stay current on the support and upgrade annual subscription. Our first year support is included in the initial price. It is only necessary to pay support and upgrades after the first year of purchase.

If you wish to upgrade your level, you must pay the difference in the Initial Level price for the level you are currently at and the level you wish to move to. Additional license purchases do not apply. Also, the support fee will be prorated rounded to the nearest month.
